Microsoft® SQL Server® Compact 4.0 SP1

Important! Selecting a language below will dynamically change the complete page content to that language.

Select Language: English

Download

Microsoft SQL Server Compact 4.0 is a free, embedded database that software developers can use for building ASP.NET websites and Windows desktop applications. SQL Server Compact 4.0 has a small footprint and supports private deployment of its binaries within the application folder, easy application development in Visual Studio and WebMatrix, and seamless migration of schema and data to SQL Server.

- Additional Information

- SQL Server Compact 4.0 is freely redistributable under a redistribution license agreement and application developers redistributing SQL Server Compact 4.0 can optionally register at the SQL Server Compact Redistribution site. Registering will help the developers in getting information about SQL Server Compact critical security patches and hot fixes that can be further applied to the client installations.
- SQL Server Compact 3.5 and SQL Server Compact 4.0 are installed and work side by side on a desktop. The existing installations of SQL Server Compact 3.5 or SQL Server Compact 3.5 SP1 or SQL Server Compact 3.5 SP2 are not upgraded to SQL Server Compact 4.0 when you install SQL Server Compact 4.0 using the installer.
